STARTING TOGETHER PARENT HANDBOOK

WELCOME AND INTRODUCTION

Welcome to the Starting Together Program! We first would like to thank you for choosing to enroll in our program. Starting Together is dedicated to providing quality home visiting services and support to prenatal families and families with infants and toddlers throughout Madison County. This handbook is intended to share information about Starting Together with you. It is meant as a quick reference to outline some basic guidelines and to answer some questions parents often ask about the program. Your home visitor is also a source of information for any questions you might have.

Starting Together is a voluntary home visiting program to help support families with young children. Our program is free thanks to funding from New York State and the federal government. New York State funds our “Healthy Families” enrolled families and the federal government funds our “Early Head Start” families. Each funder has different rules for eligibility. Once enrolled in Starting Together, the activities and support offered to families are the same. Except where noted “Starting Together” refers to all enrolled families.

PARENTS ARE THE KEY!

Your involvement in the program is the key to being able to offer quality services and support. Your involvement, input and feedback throughout the time you are in the program is important!

Parent Committee

As a Starting Together family you are already a member of the Parent Committee. The Parent Committee meets monthly except during the summer. Our Parent Committee helps to:

- ✓ Plan programming for our special events
- ✓ Elects members to the Policy Council
- ✓ Advises staff on ideas to improve our program

Policy Council ◆◆◆◆

One of the requirements for Starting Together/Early Head Start is a Policy Council. The Policy Council is made up of Starting Together parents and people in the community who have an interest in or work in early childhood.

Members of the Policy Council review and approve key parts of the Starting Together program. It is a wonderful opportunity to expand your skills and to make a difference in our program. Policy Council members learn how to read financial statements and how to take a lead in an organization. They also take part in interviewing candidates for Early Head Start staff positions.

Here are a few points to consider:

- ✓ Terms are for 1 year
- ✓ Elections are held every year
- ✓ No one can be on the Council for more than three years
- ✓ Over half (51%) of the Policy Council must be parents of Starting Together/Early Head Start

Policy Council members are reimbursed for childcare and mileage. The Policy Council meets 10 times a year. Meeting times are determined by the members and what works best for them.

Would you like to be considered for the Policy Council?

How's it Going? ◆◆◆

We are dedicated to offering you a program that makes a positive difference in you and your children's lives. During the year we ask for feedback from all of our enrolled families. At least twice a year all families receive a survey that we urge you to complete. Each January we survey all families about the support and services you have received. In July we survey families about our special events and group offerings. Over the years we have further developed and improved our program based on the results of the surveys. In addition to the surveys you will periodically receive phone calls from your Family Support Workers Supervisor to see how it's going.

Complaints and Concerns ◆◆◆

Parents are always welcome to discuss concerns they have with their Family Support Worker or the worker's Supervisor. Beyond that there is a procedure for filing complaints about the program. They are outlined in the complaint procedure in the attachments.

INFORMATION AND POLICIES

Home Visits 🌈🌈🌈

Your Family Support Worker will begin visiting with you every week for the first six months after your baby is born or you join our program. After the first 6 months your visits will vary based on the needs of your family. At any time the visits change your Family Support Worker will discuss this with you. It is important to be home when your worker arrives. If you cannot be there for the visit, please call your worker to cancel the visit.

The home visit is for parents/guardians and your child (unless you are pregnant). We encourage both parents to participate in the visits when possible. If a babysitter is the only one home with your child we will reschedule at a time convenient for you.

We do have a toll free number you can call, if it's long distance for you to call your worker- just ask!

There are some times when a home visit should be cancelled:

- ✓ If your worker is sick: (the worker or their Supervisor will call you.)
- ✓ When someone in your family is ill with something that can be passed on
- ✓ When weather conditions or other county emergency makes travel unsafe.

For illnesses, please refer to "When a Child or Adult is Too Sick ..."

It is important that our Family Support Workers not pass along illness to other children, parents and prenatal women.

Weather Related Conditions:

In general if the school in your district is closed or the school in the district where your home visitor lives is closed, there will be no home visit that day. Your Family Support Worker will discuss this in more detail with you.

If your school is closed for other reasons (school breaks, mechanical problems at school, etc.) the visit will take place as scheduled.

Playgroups @@

All families are encouraged to attend our play groups. The purpose of our play groups is to support child development and parenting by strengthening the parent-child relationship.

Our play groups offer you a chance to:

- ✓ Play with your child along with other parents and children
- ✓ Share fun activities and a healthy snack with your child
- ✓ Meet other parents

Play groups are open to all families enrolled in the Starting Together program. Sisters and brothers under the age of 4 are also welcome to attend.

Safety in Childcare and Transportation

There are times when your Family Support Worker may take you to a doctor's appointment or Starting Together event. Your Family Support Worker must have permission from their Supervisor before they can do this.

You will be asked to provide the car seat for your child and to buckle him/her into the seat and car.

Parents and guardians are always responsible for the safety and care of their children. The only exception to this is when a parent is at a doctor's visit or other public place and the Family Support Worker cares for the child in the waiting room.

We offer a variety of program events throughout the year that are open to all enrolled families. For these events childcare is not provided. Parents are responsible for the safety and care of their children.

On occasion we do offer special events with childcare provided. An example of this would be a Parent Workshop where our Family Support Workers provide childcare while parents are in the workshop. If childcare is going to be offered for an event, the flyer will let you know. There will also be a registration form to be completed asking for the ages of your children to ensure that we have enough childcare for all of the children.

Program Events and Activities ❖❖❖

In addition to home visits and play groups your Family Support Worker will let you know about our special events and activities held throughout the year. Some of our annual events include: our family picnic in June; the Fall Festival held in September and our Holiday Health Open House in December. We also offer a variety of groups such as our Nursing Mom's Support Group; Mom's Night out; and Dads Group.

"Baby Bucks" Program 🌟🌟🌟

Starting Together offers an incentive plan to help parents involved in program activities outside of your home visits. Every enrolled parent can participate in our "Baby Bucks" program. Each time you attend a play group, Parent Committee or Policy Council meeting, or other program event you will earn "Baby Bucks". You can then use these to "shop" for items such as toys, clothes, home furnishings, etc. Our incentive store is usually open twice a year: in December at our Holiday Health Open House and in June at our Annual picnic.

Questions?

Do you have other questions about the Starting Together Program? Just ask your Family Support Worker.

Our staff wants to offer you the best program possible. Please consider becoming an active parent in the program. Your ideas and comments are always welcome!

Starting Together

“When a Child or Adult Is Too Sick...”

Our staff looks forward to seeing their families on home visits and attending our many program activities such as play groups and special events. However, in order to prevent the spread of disease or illness to others, there are times when we ask that you cancel home visits or stay home from program events. We ask our staff to do the same. The following are guidelines to help you make the decision of whether to attend or cancel. Whenever you have concerns about your or your child's health, it is best to contact your medical provider.

A child is too sick to come to a playgroup or event if:

- ❖ Your child does not feel well enough to join comfortably in the program's activities.
- ❖ Your child has any of the following symptoms, unless their health provider determines that your child is well enough to attend and that the illness is not contagious:
 - *Fever* (above 100F axillary or above 101F orally) accompanied by behavior change and other signs or symptoms of illness (i.e. the child looks and acts sick)
 - *Signs or symptoms of possibly severe illness* (e.g. persistent crying, irritability, uncontrolled coughing, difficulty breathing, wheezing, lethargy)
 - *Diarrhea*: Changes from the child's usual stool pattern—increased frequency of stools, looser/watery stools, stool runs out of the diaper, or child can't get to the bathroom in time.
 - *Vomiting* more than once in the previous 24 hours.
 - *Mouth sores* with drooling
 - *Rash* with a fever or behavior change

Adults who have cold, flu, contagious rash or other symptoms that could be an illness that can be passed on to other adults or children at the playgroup or event should not attend.

(Over please >)

You should cancel a home visit and not attend playgroups or events if your health provider has said that **you, your child, or someone else in your home** has any of the following (until treated and/or no longer contagious):

- *Infections conjunctivitis/pink-eye* (with eye discharge)—until 24 hours after treatment started
- *Scabies, head lice, or other infestation*—until 24 hours after treatment and free of nits
- *Impetigo*—until 24 hours after treatment started
- *Strep throat, scarlet fever, or other strep infection*—until 24 hours after treatment started and the child is free of fever
- *Pertussis (whooping cough)*—until five days after treatment started
- *Tuberculosis (TB)*—until a health care provider determines that the disease is not contagious
- *Chicken pox*—until six days after the start of rash or all sores have crusted over
- *Mumps*—until nine days after start of symptoms (swelling of “cheeks”)
- *Hepatitis A*—until seven days after the start of symptoms (e.g. jaundice)
- *Measles or Rubella (German measles)*—until six days after start of rash
- *Oral herpes* (if child is drooling or lesions cannot be covered)—until lesions heal
- *Shingles* (if lesions cannot be covered)—until the lesions are dry
- *Flu or other short term illness that involves vomiting, diarrhea, body aches, etc.*

Whenever you have concerns about your or your child's health, it is best to contact your medical provider.

COMPLAINT PROCEDURES FOR PARENT AND COMMUNITY CONCERNS

Parent Involvement

The Starting Together program encourages parents and community residents to bring to their attention any concerns or complaints regarding the program.

Procedure

First Step: Contact the home visitor with the complaint or concern. The home visitor will take the appropriate steps to address the concern. If the complaint or concern is not resolved, the parent or community resident may take the next step.

Second Step: Contact the home visitor's supervisor regarding the complaint or concern. The supervisor will respond within five (5) working days. If the complaint/concern is not resolved, the next step may be taken.

Third Step: A written complaint or concern must be sent to the Early Childhood Division Director or (for families enrolled in Starting Together/Early Head Start) the Starting Together/Early Head Start Program Manager. Director or Manager will respond to the complaint or concern within five (5) working days. If the complaint or concern is not resolved, the parent or community resident may take the next step.

Fourth Step: For families enrolled in Starting Together/Early Head Start, a written complaint or concern is sent to the Starting Together/Early Head Start Policy Council. The Policy Council must respond in writing to the complaint or concern within 30 working days. Families enrolled in Starting Together/Healthy Families should go on to the Fifth Step.

Fifth Step: The written complaint or concern is sent to the Executive Director for discussion with the Community Action Partnership Board of Directors. A written response to the complaint is sent to the parent or community resident within 45 working days.

Exception to Procedure

The steps above may be altered when the person designated to handle the complaint or concern is directly involved in the complaint or concern. In this case, the complaint or concern is addressed to the person noted in the next step and the remaining steps are followed in the order set forth above.

BABY BUCKS FOR YOUR PARTICIPATION

HOW DO YOU EARN THEM?

- 1) **10 Baby Bucks** for participating in the **Playgroups** with children and other parents. This gives time for children to socialize and better their social skills.
- 2) **10 Baby Bucks** for attending and/or volunteering for any of the **Special Events** like picnics and gatherings or training seminars that are offered.
- 3) **15 Baby Bucks** for participating in each **Parent Committee** meeting. This committee gives the parents a chance to gather together to discuss and plan program events, policies, etc.
- 4) **20 Baby Bucks** for every **Policy Council** meeting you attend. Joining this Council gives you the ability to voice your input and opinions. This group also assists directly with the Board of Directors in decision making for the program.

Come to the June picnic and the December Holiday Health Open House to trade in your baby bucks for toys, household goods, etc.

Interested in joining or learning more about the Policy Council and/ or the Parent Committee? Please contact your home visitor or Jean Martin at 684-7862 x11 for more information. Food and childcare are provided.

We look forward to new faces, ideas, opinions.
