Supporting Families Right From the Start

Healthy Families New York (HFNY) is an evidence-based home visiting program offering services to **expectant and new parents**, beginning weekly and decreasing over time, until the child starts school or Head Start. **HFNY** is open to first-time parents, as well as **parents with multiple children**, who are pregnant and/or have **at least one child less than 3 months old**.

HFNY is **relationship-based, trauma-informed, culturally humble, family centered, and strength-based**. Home visitors develop healthy relationships with families and **partner with parents** to support them in responding in a sensitive and in a nurturing manner to their young children through various program activities.

Other Prevention Programs

Strengthening Families and Communities

OCFS also funds additional **community-based child abuse prevention programs**. These include Family Resource Centers, home visiting programs, parenting education programs, and clinical family support programs that are **evidence-based or evidence-informed**.

They **work in partnership with other community agencies** and parents to **assist families** in their caregiving roles, **strengthen informal supports**, offer resources directly or through **referrals**, and **promote community investment**. These services build on **protective factors** that research shows can **reduce child abuse and neglect**.

Healthy Families NY
