

Supporting Families Right From The Start

Healthy Families New York (HFNY) offers home-based services to support expectant families and new parents with the changes and needs that often come with the birth of a new child. Services are voluntary and free and include helping families access community resources, educating families on parenting and child development, connecting families with medical providers, and assessing children for developmental delays.

Why refer your clients to HFNY?

- Connecting WIC clients to a service like Healthy Families NY directly serves WIC's mission to safeguard the health of women, infants and children.
- Healthy Families NY home visitors help to educate and encourage expectant and new mothers around the benefits of breastfeeding.
- Home visitors help connect families to organizations that provide access to free or discounted food or nutritional counseling services.

Healthy Families New York promotes the health of women, infants and children. To find a program near you, please visit our website:
