# HFNY MIECHV Program Discussion

## MIECHV-MIS Crosswalk:
*Which MIS reports match the MIECHV benchmarks reporting?*

5 September 2024

# Purpose of Call

- To support one another in achieving our goals to help families
- To share strategies for success in performing well on the MIECHV benchmarks and barriers to meeting them

- **Which MIS reports can be used to track performance on MIECHV benchmarks between quarterly MIECHV reporting?**
- **How well do these MIS reports match the MIECHV reporting?**

# What is "match quality"?

*Match quality: how well an MIS report aligns with MIECHV reporting*

- **Match Quality: High**
  - Can use the MIS report to accurately estimate program performance on the benchmark

- **Match Quality: Medium-low/Medium-high**
  - Can use the report to provide a rough estimate of program performance on the benchmark, but the numbers won't be the same as those on the quarterly MIECHV reports (e.g., different cohorts, time periods, requirements)

- **Match Quality: Low**
  - Can use the report to provide additional context for the performance on the quarterly MIECHV reports, but not to accurately estimate performance on the benchmark (i.e., the MIS doesn't calculate the same measure as the MIECHV benchmark or calculates the measure very differently)

# Benchmark 1: Preterm Birth

- **Definition:** % of children (among mothers who enrolled in home visiting prenatally before 37 weeks) who are born preterm following program enrollment (*note: lower is better*)

- **MIS Report 1:** Birth Outcomes
  - **Match Quality:** High

- **MIS Report 2:** Prenatal/Postnatal Cases
  - **Match Quality:** Low
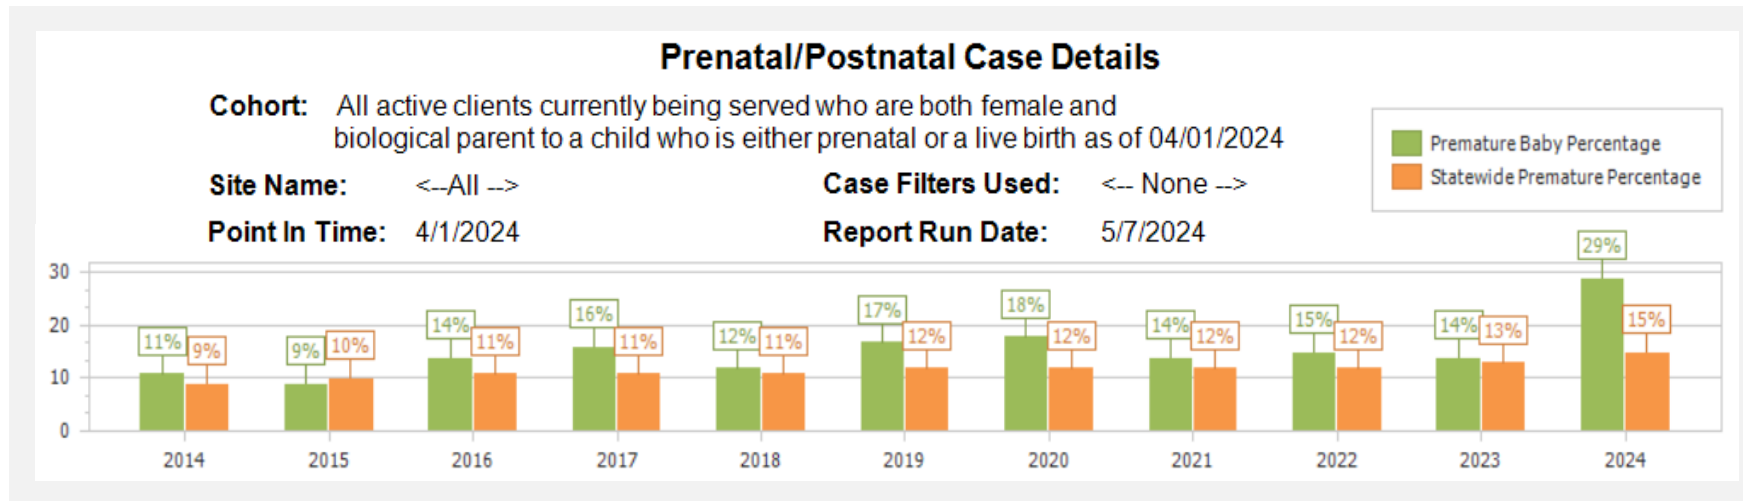

# Birth Outcomes Report

*Match Quality: High*

## Birth Outcomes

Cohort: All children (TCs and Others) born in period with at least 1 Home Visit AFTER TC's birth (to potentially record birth outcome info).

Site Name: <--All -->

FSS:

Children born between: 1/1/2024 and 3/31/2024

Case Filters Used: <-- None -->

### Target Children (TC)

| | | |
|---|---|---|
| PC1s with a TC born in period | 8 | |
| TCs born in period | 8 | |
| TCs who were multiples | 0 | 0% |
| PC1s who received prenatal care | 7 | 88% |

**Birth Term**

| | | |
|---|---|---|
| Full Term TC's | 8 | 100% |
| Premature TC's | 0 | 0% |
| Missing birth term | 0 | 0% |

**Birth Weight**

| | | |
|---|---|---|
| Normal birth weight | 8 | 100% |
| Low birth weight | 0 | 0% |
| Missing birth weight | 0 | 0% |

# Prenatal/Postnatal Cases

## Match Quality: *Low*

**Annual comparisons of premature births at site vs. all HFNY**

### Prenatal/Postnatal Case Details

**Cohort:** All active clients currently being served who are both female and biological parent to a child who is either prenatal or a live birth as of 04/01/2024

**Site Name:** <--All -->

**Point In Time:** 4/1/2024

**Case Filters Used:** <-- None -->

**Report Run Date:** 5/7/2024

Legend:
- Premature Baby Percentage (green)
- Statewide Premature Percentage (orange)

| Year | Premature Baby % | Statewide % |
|------|------------------|-------------|
| 2014 | 11% | 9% |
| 2015 | 9% | 10% |
| 2016 | 14% | 11% |
| 2017 | 16% | 11% |
| 2018 | 12% | 11% |
| 2019 | 17% | 12% |
| 2020 | 18% | 12% |
| 2021 | 14% | 12% |
| 2022 | 15% | 12% |
| 2023 | 14% | 13% |
| 2024 | 29% | 15% |

**List of individual PC1 birth types**

**Postnatal**

| PC1ID | Target Child Date Of Birth | Intake Date | Weeks Pregnant at Intake | Birth Weight | Fed Breast Milk | Birth Type | Gestational Age | Delivery Type | PC1 Under 21 At Birth | Multiple Birth | PC1 FROG Score | Received Prenatal Care |
|-------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|
| | | | 30 | 6.69 lbs | Yes | Full Term | 40 | V | No | No | 11 | Yes |
| | | | 27 | 3.13 lbs | No | Premature | 30 | C | No | Yes | 18 | Yes |

# Benchmark 2: Breastfeeding

- **Definition:** % of children (among mothers who enrolled in home visiting prenatally) who were breastfed any amount at 6 months of age

- **MIS Report:** Quarterly Performance Targets (item PC1a)

  - **Match Quality:** High

# Quarterly Performance Targets (item PC1a)

*Match Quality: High*

**Performance Targets**

Site: <--All -->                3rd Quarter:        01/01/24 - 03/31/24

Case Filters used:              Contract:           07/01/23 - 06/30/24

| Parent Child Interaction Targets | Valid Cases | | | |
| --- | --- | --- | --- | --- |
| | Percentage who meet Performance Target | Number who meet Performance Target | Total Valid Cases | Total Cases |
| **PCI1a. Primary Care Taker 1 breast feeding**<br>30% of PC1s who were enrolled pre-natally will breast feed their target children for at least 6 months from the birth of the child<br>Cohort: Families that were enrolled pre-natally where target children are now 6 to 15 months of age | 39% | 12 | 31 | 36 |

## List of PC1s not meeting the measure

**Cases Not Meeting**

| PT# | PC1ID / Full Name | Target Child DOB | Form / Reason | Current Worker / Level @ Report End | Explanation |
| --- | --- | --- | --- | --- | --- |
| PCI1a | | 03/06/2023 | 1 year Follow Up | | |
| | | | No breast feeding | Level 3 | |
| PCI1a | | 08/23/2023 | 6 month Follow Up | | |
| | | | Breast fed < 6 months | Level 1 | |

# Benchmark 3: Depression Screening

- **Definition:** % of PC1s enrolled in home visiting who are screened for depression using a validated tool (PHQ-9) within 3 months of enrollment (for postnatal enrollees) or within 3 months of delivery (for prenatal enrollees)

- **MIS Report:** 7-4.C Postnatal Administration of Depression (PHQ9) Screen

  - **Match Quality:** Medium-low

# 7-4.C Postnatal Administration of Depression (PHQ9) Screen
## Match Quality: *Medium-low*

**7-4.C Postnatal Administration of the PHQ9 Screen for 04/01/2024**

**Cohort:** See the report documentation for the cohort description...

**Site:** <--All -->                    **Case Filters used:** <-- None -->

**Scoring Criteria:**

3 - At least 95% of cases in the cohort were screened at least once postnatally within 3 months.

2 - 80% - 94% of cases in the cohort were screened at least once postnatally within 3 months.

1 - Less than 80% of cases in the cohort were screened at least once postnatally within 3 months OR less than 100% of cases in the cohort were screened at least once postnatally within 6 months.

**Current Performance:**

| # of Cases in Cohort | Screened within 3 Months | Screened within 6 Months |
|---|---|---|
| 41 | 41 (100%) | 41 (100%) |

**Worker:**                                   **Supervisor:**

| PC1ID | Current Level | TC DOB | Intake Date | PHQ Date | Screened within 3 Months? | Screened within 6 Months? |
|---|---|---|---|---|---|---|
| | Level CO-term | 04/11/2023 | 04/28/2023 | 04/28/2023 | Yes | Yes |

**List of individual PC1 PHQ screening details (organized by worker)**

# Benchmark 4: Well-Child Visit

- **Definition:** % of children enrolled in home visiting (aged 8 days or older at last home visit) who received the last recommended visit based on the American Academy of Pediatrics (AAP) schedule.

- **MIS Report 1:** MIECHV Well Child Visits (Benchmark 4) Report

  - **Match Quality:** High

- **MIS Report 2:** Quarterly Performance Targets (items HD5, HD6)

  - **Match Quality:** Low

# MIECHV Well Child Visits (Benchmark 4) Report

*Match Quality: High*

Benchmark 4: Well-Child Visit

**MIECHV Well Child Visits (Benchmark 4) Report for 04/01/2023 - 06/30/2024**

Site: <--All -->                    Case Filters Used: <-- None -->

**Summary**

| # of Target Children | # Meeting Standard |
|---|---|
| 57 | 34 (60%) |

**Detailed list of well child visits for each TC**

**Details**

Current Worker:                              Supervisor:

| PC1ID | Target Child | TC DOB | Last Home Visit Date in Period | TC Age as of Last Home Visit | Discharge Date | Discharge Reason |
|---|---|---|---|---|---|---|
| | | 03/22/2023 | 01/01/2024 | 0 Year(s) 9 Month(s) 10 Day(s) | | |

# Benchmark 9: Child Maltreatment

- **Definition:** Percent of children enrolled in home visiting with at least one investigated case of maltreatment following enrollment within the reporting period *(note: lower is better)*

***Not included in quarterly reporting***

# Benchmark 10: Parent-Child Interaction

- **Definition:** % of PC1s enrolled in home visiting who receive an observation of caregiver-child interaction by the home visitor using a validated tool (CHEERS Check-In Tool)

- **MIS Report:** 6-3.D CHEERS Check-In Observations

  - **Match Quality:** Low

# 6-3.D CHEERS Check-In Observations

*Match Quality: Low*

**6-3.D CHEERS Check-In Tool Credentialing report**

Cohort: All active families with a TC that is between 12 and 48 months old as of 1/1/2024.

Site: <--All -->                          Case Filters used:  <-- None -->

| Calculation of Score | Overall | Recent Practice |
|---|---|---|
| | 2 forms per year | 1 form last 6 months |
| Count of TC's between 12 and 48 months old: | 152 | 152 |
| Count of TC's meeting standard: | 152 | 85 |
| % of TC's meeting standard: | 100% | 56% |

Score: 3

Scoring Legend (BPS 8th ed.)

3 = At least 90% of TCs (aged at least 12 months) receive at least 2 CHEERS Check-Ins per year until TC is 3 years old.

2 = While past instances of less than 90% of TCs receiving 2 CHEERS Check-Ins per year have occurred, in the last 6 months, at least 90% of TCs have had 1 CCI screen completed.

1 = Less than 90% of families (with TCs aged at least 8 months) received at least 2 CHEERS Check-In per year until TC is 3 years old.
